

# Likhitha Chinthirala

Khammam, Telangana, India | +91 90596 34595 | [likhithachinthirala@gmail.com](mailto:likhithachinthirala@gmail.com) |

LinkedIn: [linkedin.com/in/likhitha-chinthirala](https://www.linkedin.com/in/likhitha-chinthirala) | GitHub: [github.com/vinni-905](https://github.com/vinni-905)

## PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with a foundation in the MERN stack, AI/ML, and Cybersecurity. Experienced in building web applications and ML models through internships and academic projects. Skilled in Python, JavaScript, and databases with exposure to AI-enabled solutions, CNN-based models, and phishing detection tools. Seeking a software engineering role to apply problem-solving skills and build scalable solutions.

## EDUCATION

B.Tech – Computer Science and Engineering | Institute of Technology and Science, Khammam | 2022–2026 | CGPA: 8.5/10  
Intermediate (MPC) | Saahithi Junior College, Yellandu | 2020–2022 | Percentage : 96%  
Secondary Education | Priyadarshini High School, Yellandu | 2018 – 2019 | GPA: 10.0

## TECHNICAL SKILLS

**Languages:** Python, Java, C, JavaScript

**Web:** React.js (basic), HTML, CSS

**Backend & APIs:** Node.js, REST APIs

**Databases:** SQL, Firebase, Oracle (basic)

**AI/ML:** CNN, Random Forest, NLP basics, model training & evaluation

**Tools:** Git, GitHub, VS Code | Concepts: Cybersecurity fundamentals, Secure coding, Agile collaboration

## INTERNSHIP EXPERIENCE

**AI Intern – Infosys (Virtual) | Nov 2024–Present:** Working on AI-enabled Market Trend & Consumer Sentiment Forecaster using predictive analytics and NLP. Performed data preprocessing, model evaluation, and sentiment scoring while collaborating in agile sprint reviews.

**Cyber Security Virtual Intern – AICTE & Edunet (IBM SkillsBuild) | Sep 2025–Nov 2025:** Learned cybersecurity fundamentals, vulnerability assessment, secure coding, and risk mitigation.

**AI & Sustainability Intern – Edunet (Shell Skills4Future) | Oct 2024–Nov 2024:** Built EcoVision-AI pollution detection model using CNN and analyzed climate datasets with ESG insights.

## PROJECTS

**Guidance-Guru:** AI-powered educational platform built using React, Tailwind CSS, Node.js, Firebase, and OpenAI API with chatbot and voice mentor features.

**EcoVision-AI:** CNN-based pollution detection model trained on environmental datasets.

**Phishing Detection Tool:** Random Forest ML model for detecting phishing URLs with feature extraction and dataset preprocessing.

**Word Link Game:** Browser-based JavaScript puzzle game with scoring logic and difficulty levels.

## STRENGTHS

Communication | Leadership | Teamwork | Analytical thinking | Time management | Adaptability and Quick learning .

## HOBBIES

Solving puzzles & problem-solving games | Content creation | Team sports and group activities .
